What would happen if I charged my phone with a 5V 1A or 5V

A charger with 5V 1A battery will charge the phone slowly and might affect the battery life of device but the charger with 5V 3A battery is over the limit 2A. The battery can take maximum 2A current supply if more than this supply is given it would harm the battery. So, it is recommended to use original charger to charge the mobiles.
