Complexity Perspectives in Innovation and Social Change

This Book Series is devoted to examining and solving the major methodological problems social sciences are facing. Take for example the gap between empirical and theoretical research, the explanatory power of models, the relevance of multilevel analysis, the weakness of cumulative knowledge, the role of ordinary knowledge in the research process, or the place which should be reserved to

Complexity Perspectives in Innovation and Social Change

One of the main emphases is the need, in the social sciences, to move away from neo-darwinist population thinking to organization thinking if we want to understand social evolution. Another main emphasis is on developing a generative approach to invention and innovation, looking in detail at the contexts within which invention and innovation occur, and how
