WHO Europe What is a healthy city

A healthy city is defined by a process, not an outcome. A healthy city is not one that has achieved a particular health status. It is conscious of health and striving to improve it. Thus any city can be a healthy city, regardless of its current health status. The requirements are: a commitment to

WHO Collaborating Centre for Healthy Cities and Urban

Under these circumstances, our WHO Collaborating Centre for Healthy Cities and Urban Policy Research pursues various activities and related research. Part of our research focus entails the

development of a research framework that will evaluate integrative impacts of health determinants, and the establishment of health plans on the basis of a community diagnosis.
