What is Information Society Definition from Whatls com

Information Society is a term for a society in which the creation, distribution, and manipulation of information has become the most significant economic and cultural activity. An Information Society may be contrasted with societies in which the economic underpinning is primarily Industrial or Agrarian.

<http://elevatecoworking.co/What-is-Information-Society--Definition-from-Whatls-com.pdf>

Information Technology Its Impact on Society and Its Future

The definition of society for the 75% of the population who will embrace Information Technology will change radically. What makes a society today will not be of much importance in the future. People would these days agree that a society is defined mostly by location, language, culture, political system, shared customs, standard of living and common history.
