Labor Management System Easy Metrics

An LMS is software that takes employee activity data and reports productivity levels on a group of employees, or individual employees. Having an LMS helps organizations optimize workforce productivity by gaining visibility where their workforce labor dollars are being spent and how to optimize their labor.

<http://elevatecoworking.co/Labor-Management-System-Easy-Metrics.pdf>

Labor process theory Wikipedia

A key element of the labour process theory is an analysis of the local systems of management and control and an examination of how these are used to reduce the power of sections of the working class who hold work skills that are not reproducible by unskilled labour or machine power.
