Readers' Guide to the History of Science

The Reader's Guide covers the subject fairly well in some 500 brief, topical essays (including, as is common, the history of technology and medicine). The author, who is Research Fellow at MIT's Dibner Institute, states his goal is to provide an introduction to the secondary literature for students at the graduate and undergraduate level, as well as teachers at all levels. He aptly states his

The Reader Wikipedia

The Reader abounds with references to representations of the Holocaust, both external and internal to Michael's narrative, some real and some invented by Schlink. Of the latter, the most important is the book by the death-march survivor that constitutes the basis of the case against Hanna. It is summarized at some length and even briefly quoted, although its title is never given. Michael must
