Parameter Estimation of Kinetic Rates in Stochastic

Introduction The algorithm introduced by Gillespie [8] performs stochastic simulation of reaction networks, it allows to model chemical or biochemical kinetics. When applying this simulation method the kinetic rate constants (called simply kinetic rates from now on) of the reactions must be set. Most studies that deal with the identification of these parameters are based on the deterministic

A probabilistic view on steady state enzyme reactions

A new theoretical description of steady-state enzyme reactions is proposed. The description is based on the concepts of the probability theory instead of the conventional formalism of chemical kinetics.
