The formation of river meanders has been analyzed as a stochastic process Language and linguistics. Non-deterministic approaches in language studies are largely inspired by the work of Ferdinand de Saussure, for example, in functionalist linguistic theory, which argues that competence is based on performance.

Stability and stabilization of a class of stochastic

As an important class of stochastic switching systems, Markov jump systems (MJSs) have been widely utilized to model systems that have different system modes and may switch among them stochastically (Li, Lam, Gao, & Xiong, 2016).

High Frequency Stochastic Switching of Graphene Resonators

Stochastic switching between the two bistable states of a strongly driven mechanical resonator enables detection of weak signals based on probability distributions, in a manner that mimics biological systems. However, conventional silicon resonators at the microscale require a large amount of fluctuation power to achieve a switching rate in the
